## Parent Comments

- This will be really helpful, thank you!
- I'm delighted that the teachers will facilitate this in partnership with the home and create a safe space for my son to talk about these things at home and at school. This has to be an open conversation early on!
- I felt it was all explained clearly and with enthusiasm!
- Very reassuring content on how to approach subjects taught in school.
- Good overview - sensitively handled.
- Just to keep parents updated weekly in the upcoming topic would be great!
- I do have questions but I think I will find the answers online by looking at the course.
- Makes me feel at ease at the thought of difficult conversations that may arise as my daughter gets older. Really enjoyed today and found it very informative. Thank you!
- Excellent information to understand what our young people will be learning.
- Very interesting and I feel reassured that my daughter will be learning factually and no views or beliefs will be pushed onto her. Thank you very much for all the information.
- It would be good to know if gender identification will be covered in terms of gender fluid, non-binary etc
- Great to be informed about processes.
- Interesting to listen to the talk because you get a much better overview and perspective than just looking at the resource website.
- Very informative presentation. Lovely to see some of the slides used and great that it's all online for parents to see too.
- It was good to hear about the schools plans for RSHP. Having looked at the resources I do not agree that they are age appropriate and have some concerns about this programme. I am grateful to have had the opportunity to look at the resources.
